

# **This Week's Problems**

## **Foundation Phase**

1. Which 3 of these numbers add up to 20? 1, 8, 5, 10, 7

## **Key Stage 2**

1. The total length of three lines is 16cm. Each line is more than 3cm long but less than 12cm. How many different sets of lines can you draw that add up to this total length? (Only use whole centimetres)

## **Challenge Question**

1. Write down 15 numbers that could fall between 7.3 and 7.4
