

Professional Learning Grant

How we propose to spend the 2019/20 grant to support professional development.

The purpose of the professional Learning Grant is to provide greater opportunities for effective professional development to support the implementation of the education reforms in Wales.

In 2019/20 Ysgol Melyd were allocated a total Professional Learning Grant of £3770 to promote high quality professional learning.

We are using the funding available to provide staff with the opportunity to attend courses and purchase resources to support their professional learning in the following key aspects of the education reform programme:

- Wellbeing – implementing the Nurture Schools Programme
- Wellbeing – attending the Welsh Government training on the impact of adverse childhood experiences (ACEs)
- Wellbeing – attending Trauma Informed Schools training
- Pedagogy – attending Cath Delve Training to support development of pedagogy in Key Stage 2
- Pedagogy (DCF) – attending training to support the effective use of technology

Mr Dafydd Jones, Head Teacher, 2019
